[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO FEB. 8.

EASTERN STATES.

The Illinois Railroad Disaster.

CHICAGO, Feb. 7.—The total number of killed by the railroad accident near Alton, Illinois, today, was 4; wounded, 13—4 of them seriously. All the killed were so jammed in the car that they were unable to extricate themselves and were burned to death, as the cars caught fire almost instantly after the collision. The conductor of the freight train is blamed for the accident, as he was running off his time and was fully aware of the fact.

Death of Archbishop Spaulding.

BALTIMORE, Feb. 7.—Martin John Spaulding, Primate of the Catholic Church in the United States and Archbishop of this Diocese, after a protracted illness, died at 5 P. M. Funeral Monday.

The condition of Senator Gareit has improved since last night.

New York News.

NEW YORK, Feb. 7.—The jury in the case of Ponono, murdered in Brooklyn, rendered a verdict that he died of injuries inflicted by persons unknown, and recommended an increase of the police force, as they deem the present force inadequate for the protection of lives and property.

Judge Barnard refused to appoint a receiver for the Third National Bank on the ground that it is perfectly sound.

Seven persons were taken from one house on Third street to the hospital with the smallpox.

Roosevelt H. Jerome, son of the Alderman, died yesterday from an overdose of opium to quiet his nerves which were prostrated by liquor.

His mother has become insane and his father is very ill.

Battledore and Shuttlecock.

ALBANY, Feb. 8.—The Senate resolution rescinding the action of the Legislature of 1871, in withdrawing the ratification of the 15th Amendment, passed the Assembly this evening by a vote of 7 to 30.

The Illinois Railway Massacre.

ST. LOUIS, Feb. 8.—The coroner's jury in the case of the victims of the railroad collision, near Alton, Illinois, yesterday rendered a verdict that they came to their death by the criminal carelessness of Frederick Baker, conductor of the freight train, and that Patrick Halpine, engineer of the same, is accessory.

Miscellaneous Eastern News.

CAIRO, Feb. 8.—There was quite a heavy shock of earthquake here at 5 o'clock this morning.

PHILADELPHIA, Feb. 8.—H. W. Tanner has disappeared, leaving liabilities of $75,000.

WASHINGTON, Feb. 8.—The Senate Committee on Foreign Relations to-day had under consideration the nomination of Charles Hall as Assistant Secretary of State, but came to no conclusion.

The Committee on Appropriations has an army bill ready to present if the House were ready to receive it. The remaining general appropriation bills will be reported next week. There are civil

WASHINGTON CITY.

Views of our Government on the Washington Treaty.

WASHINGTON, Feb. 7.—The position taken by gentlemen closely connected with the Administration is that the British Joint High Commissioners perfectly understood the views of the American Commissioners in negotiating the Treaty of Washington, both from its terms and otherwise, and therefore our Government is altogether justifiable in having the case presented as it has been, and claiming consequential damages. In case the Board shall not award a gross sum in satisfaction of *Alabama* claims, this Government is willing to stand by the decision of the arbitrators on that point. It is known that though the British Commissioners had full power, they frequently consulted their home Government, and acted in accordance with its wishes. This Government has not yet received the text of Granville's note to Schenck, and therefore cannot take official action upon it. There is no probability whatever that our Government will withdraw any part of its statement in the case, but will leave the British Government to pursue its own course, or the tribunal of arbitration to act in the premises in accordance with the treaty stipulations. Nor is it likely that our counsel will take any action in order to accommodate the British Government.

There is not one word of truth in the publication that there has been an estrangement between Secretary Fish and Gen. Sickles. On the contrary the best feeling exists between them.

The Washington Treasury to-day paid $91,000 for 5-20's redeemed, and $560,000 on the January and February interest.

The President to-day sent to the Senate information furnished by the Secretary of State in response to a resolution of inquiry regarding the detention in Venezuela of the American steamers *Hero, Dudley, Buck* and *San Fernando*, the property of the Venezuela Steam Transportation Co., an American incorporation.

District Attorney Bates, of Utah, says he came here by permission of the Attorney General at his own expense; that he asked Congress either to give him money to prosecute criminals or order the prosecution dismissed. Being here, he now wants money to go on or orders to stop. He has not asked, suggested or had anything to do with the removal of Judge McKean.

The Committee of Territory delegates this morning unanimously resolved to ask the consent of the House of Representatives that one day in each month be devoted to the consideration and transaction of business relating to Territories. Sub-committees were also appointed to confer with the House Committee on Territories so as to enable the Legislatures to endow municipal incorporations in Territories with power to enforce their ordinances, and in relation to the laws regulating the salaries of clerks of courts, etc.

Senate Proceedings.

WASHINGTON, Feb. 7.—In the Senate committee presented the petition of many artisans against free trade.

At the expiration of the morning hour, the Amnesty bill was taken up, the pending question being on Carpenter's substitute for Sumner's supplementary Civil Rights bill. Carpenter's substitute was rejected, 13 to 35.

Congressional.

WASHINGTON, Feb. 8.—In the Senate, Bereman, of the Committee on Territories, reported Ramsey's bill to establish the Territory of Ojibway, with the amendment changing the name of the proposed Territory to Pembina. It is to consist of that portion of Dakota lying north of the 46th parallel.

On motion the Amnesty bill was taken up.

Ferry, of Connecticut, spoke in opposition to Sumner's Civil rights amendment, specifying, particularly, the proposition equalizing children in public schools, as one class of people would not submit to, but saying after all the great objections to the bill was the principle on which it had been justified in the Senate, viz.: That by the adoption of the most recent amendments to the Constitution, our old system of government had been subverted and the Federal Government has been given complete and unlimited authority to take the place of the State governments and enact laws for the protection of all rights and privileges and immunities of citizens which are now protected. He said that if those amendments meant all this, then God help us, for the foundations of civil liberty were stricken away from the United States, and our fall was only a question of time.

Sumner withdrew his consent given yesterday to the striking out of the 7th section. A motion to strike out this section was lost; yeas, 25: nays 13.

Frelinghuysen moved to strike out all reference to churches.

Trumbull said he would vote against this and all other amendments that made the bill obnoxious as possible. He might thereby secure its defeat. He is for an Amnesty bill and against amendments thus designed to defeat it.

Sumner refused to accept the amendment.

Vickers moved to strike out all relating to schools. He alleges that the reason for omitting churches from the bill applies with equal effect to schools.

Frelinghuysen's amendment was adopted.

Carpenter moved to strike out the 4th section relative to jurors; lost, 12 to 41. It was moved to substitute the word "citizen" for "person" in the 5th section. Trumbull denounced this as an attempt to discriminate against foreigners residing here, including those who intended becoming citizens. He supposed the object of Cole in offering this amendment was to exclude Chinamen from the provisions of the bill, but as we had provided that Hottentots and pagans might become citizens, there was no good reason for excluding peaceful, intelligent Asiatics. Trumbull also charged that the opponents of amnesty were voting for these amendments for the purpose of defeating the Amnesty bill. Morton said he supposed there was great anxiety on the part of the friends of amnesty to pass the pending bill, but he now saw he had been mistaken, therefore he moved to adjourn. The motion carried and the Senate adjourned.

Facts and Rumors.

NEW YORK, Feb. 8.—An evening paper in New York, yesterday published what purported to be a cable correspondence between Minister Schenck and Secretary Fish, dated the 5th, relating to the *Alabama* claims. But the dispatches as published bore the evidence of being bogus, and now a telegram from official sources says they were not genuine, and further, that no cable dispatches of any kind were received from Schenck on Monday.

Thomas K. Cree of Pittsburg is appointed Secretary of the Board of Indian Commissioners vice Vincent Colyer resigned.

Secretary Boutwell presented a bill before the House Committee on Commerce, to-day, embodying his views for aiding the shipping interests of the United States, and urged its adoption. Secretary Robeson also urged in behalf of the measure.

The Mexican Claims.

WASHINGTON, Feb. 8.—Up to the 6th inst. the same awarded the Americans by the Joint United States and Mexican Commission amounted to $575,000. The amount claimed in the aggregate is $11,400,000. The awards to Mexicans amounted to only $360,000. The aggregate claimed is $18,000,000.

BY ATLANTIC CABLE.

The Alabama Claims.

LONDON, Feb. 7.—The subject of the Treaty of Washington and the claims of the American government for indirect damages, was again introduced in the House of Commons to-day, and gave rise to a very excited discussion.

Discussion in Parliament.

LONDON, Feb. 7.—The member for Waterford city addressed the House at length, and in the course of his remarks said the Alabama question was the most momentous England had been called to pass upon within a century. He compared the State lawyers who composed the American Commission with the novices who represented England, and said the latter had been completely outwitted. If such lawyers had planned the English case they could have escaped with the payment of six million sterling. The American Commission had served their country well and achieved a triumph. He said the troubles lay at home. The Government had armies which could not march, and ships which were unseaworthy, and now they had a treaty which they could not stand upon.

Otway, formerly Under Secretary of Foreign Affairs, blamed the Government for all the troublesome claims. He thought Mr. Gladstone now, however, that America would retract from its extreme demands; but he said that in case they did not, England having admitted the principle of indirect claims, must be prepared to meet the enormous demands of the United States.

Gladstone and several other members defended the action of the Commissioners of the Government, and said they hoped the American claims for indirect damages would be withdrawn.

Feelings in England.

NEW YORK, Feb. 7.—A *Tribune* special from London says Earl Granville's dispatch contains no threats to withdraw from arbitration, and makes neither a demand nor proposal. It simply calls attention in conciliatory language to the meaning that England attaches to the treaty.

Gladstone's speeches yesterday and to-day are severely criticised as mischievous, offensive and needlessly irritating, and it is believed that several members of the Cabinet strongly disapprove their passionate tone. The Cabinet people are unanimous for abandoning the arbitration unless the American claim is modified. There is no intention to offer an affront to America. The situation is regarded in the highest English and American quarters as extremely grave, but not hopeless.

Chas. Francis Adams goes home Saturday.

French Affairs.

PARIS, Feb. 7.—The National Assembly, after an agitated discussion passed a resolution authorising the prosecution of publishers of Provincial papers which have lately contained articles insulting to the Assembly.

London Dispatches.

LONDON, Feb. 8.—A new company which proposes to lay a telegraph cable direct to New York, has been registered. One of the features of its project is a promise to fix tolls on dispatches at twenty shillings for 10 words.

The *Times* to-day in reviewing the debate in the House of Commons says it is evident that the House is unanimous in repudiating the admissibility of American claims for indirect losses, if Gladstone's language do not really induce Americans to withdraw their demands. The *Times* says it is thoroughly depressed a verbal discussion of the treaty.

The *Telegraph* criticises the comments of American journalists on the subject.

News from Paris.

PARIS, Feb. 8.—A number of Americans leave Paris to-night for Florence to join Lieut. Grant and accompany him home.

It is reported that Duos de Nemours and Aumale claim the reinstatement of their former rank in the army and that Prince de Joinville demands his commission in the navy.

CUBA.

From Havana.

HAVANA, Feb. 7.—The British schooner *Lark* was captured and towed into Manila. She was on her way from Montagua bar to Cyane for the purpose of purchasing a wrecked vessel. A storm drove the *Lark* on the Cuban coast, where she was seized and towed into Manila on suspicion of being a blockade runner. The captain and crew were placed in jail but released on bail at the instance of the British Consul. The Spanish Admiral is convinced that the *Lark* was not a blockade runner.

It is officially announced that the Grand Duke Alexis will arrive here about the 15th inst.

The celebrated Cuban General Cannova, was killed by guerillas near Ciego de Avrilla.

An arrival from Honduras states that General Viodalhas been appointed Embassador to France. He is here on his way to France.

SOUTH AMERICA.

The War in Venezuela.

LA GUYRA, Jan. 22.—President Guzoiman Blanco, with 5,000 men, attacked a stronghold of the revolutionists. The revolutionists lost 300 men, including their leader, the celebrated General Oliva. The opinion is general that the war has ceased.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Feb. 8.—Henry Steffers, a woman whipper, was fined $200 with alternative of 100 days in jail, by Judge Louderback.

Ah Cow, the Chinaman who cut off his own cue when an officer arrested him for burglary, leaving his tail in the officer's hand, was to day sent up for trial on bail of $2,000

Parties who started east last week and are now at Salt Lake, telegraphed that they have hope of getting through within three or four days.

Stocks decidedly weak.

SAN FRANCISCO, Feb. 9.—It rained hard during the night, the wind blowing a gale from the northwest. The rainfall to day was 1.21 100, making the total for the season 27 9 100.

There has been one continued roar of Chinese fireworks all morning. One house on Dupont street burnt $500 worth at one blow out.

SAN FRANCISCO, Feb. 8.—The opening of bids for the surrender of San Francisco bonds did not show any anxiety on the part of bondholders to dispose of them. There was only one proposal for surrender of six per cent. bonds of 1855, which was from the Bank of California, for $6,000 at par and interest for 6 per cents of '68. The lowest bid was for the surrender of school bonds.

A British army of 10,000 men, with 400 elephants, is being organized at Chattuck to conquer the Looshias, a people living on the northeastern frontier of India. The tea-planters were encroaching on lands which the Looshias claimed as their hereditary domain, and about a year ago the Looshias descended on the homes of the planter, massacred a number of persons, and carried off captive an English lady, Miss Winchester. The British Government has resolved to retaliate.

Horace Greeley, in the *Tribune*, says though he does not exalt the one term principle above every other consideration, yet he has advocated it for over thirty years—never supporting a president for re-election but once, that he has reason for believing Grant assented to it less than four years ago. He does not say that if Grant is nominated he will not support him, but that his nomination renders doubtful a Republican triumph, which a one-term pledged candidate would make certain.

NEWS CONDENSATIONS.

An arrangement has been perfected between the Russian and Prussian Governments whereby Russia grants to Germany a special concession for the privilege of railway communication through Poland. A similar privilege has been denied to the Austro Hungarian Government.

Speaking of the condition of the overland railroad a San Francisco paper says: The loss to San Francisco by these interruptions to trade is almost incalculable. Not only are our merchants kept out of the goods required for their daily customers, but many perishable articles are damaged, and sometimes, indeed, totally ruined upon the transit.

A *Herald* special from Washington says it seems that the Democratic members of Congress who supported Bingham of Ohio to join them until Grant crusade have been counting too fast, they gentlemen declaring in positive terms that he is and always has been a strong supporter of the administration, and is favorable to Grant's re-election.

The indictments found against the Tammany thieves a few days ago charge that Peter B. Sweeny, Mayor Hall, ex-Controller Connolly and William M. Tweed, and also several others, aided and abetted in defrauding the city of New York of various sums of money by means of fraudulent warrants. The aggregate amount of the frauds is set down at $15,000,000. This is the party that is preaching against corruption!

In a speech in the Senate on the 30th ult. Mr. Sehurz said he wanted the leading rebels amnestied, so as to bring a higher order of talent into public life at the South; but he would rather have a lower order of talent cultivated in the school of loyalty. As to abuses in the government of the Southern States, the people had only themselves to blame for it; they had sown the wind, and must reap the whirlwind.

Japanese at West Point.

Senator Cole, in a speech delivered by him on the bill reported by the Senate Military Committee, authorizing the Secretary of War to admit six Japanese students to the Military Academy at West Point, took general grounds in favor of the measure. He said:

It may not be known to all Senators that the Japanese are at the present time endeavoring to obtain instruction for their youth in all the classes of schools in this country, and, I observe, that of West Point as well as in others. There are, now some three hundred of the young men of that nation either attending schools in this country, or about to enter them, and some two hundred and twenty-five have gone to attend schools in the different nations of Europe. I can readily see that it would be a vast advantage to this country to afford every facility for education to the young men of that country in all our schools. The commercial relations that are springing up between Japan and the United States are becoming so prominent, so conspicuous now, that it would be bad policy, in my judgment, to throw even the slightest obstruction in the way.

The Japanese take an interest in our nation and in our institutions above those of any other country. They have conceived a liking for the institutions of America, and are discarding their own for the purpose of adopting our liberal systems, both as relates to dress and the habits of living. Indeed, they have already discarded many of their ancient costumes for the purpose of adopting ours. In a few days from this time, about the 10th of next month, there will be some forty more arrivals from that country, and among them the Secretary of Foreign Relations of that nation, who is coming to this country for the purpose, I presume, of obtaining information in relation to our institutions.

I am, therefore, Mr. President, very heartily in favor of the bill that is now pending, and I hope that it may pass. I trust that the Senator from Ohio will not insist upon his objections to it when he reflects upon the advantage that it must be to the nation at large.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

WASHINGTON CITY.

Congressional.

WASHINGTON, Feb. 8.—In the Senate, Mr. Carpenter presented a petition from the merchants in Wisconsin, complaining of hardships and injustice arising under the administration of the revenue laws. He said that the evils complained of were very grievous, especially seizures, and should be promptly corrected.

Trumbull presented a similar memorial by merchants of Chicago, fully concurring in what Carpenter had said. He thought Congress ought to do more than merely correct evils arising from seizures.

Fenton called attention to the fact that the memorials also embraced the subject of appointments and removals from office.

Edmonds reminded the Senate that there was another side to the question of seizure. The Government, while protecting importers, must give its officers the right to make seizures.

Hamlin took the same view.

Anthony presented a similar memorial. In response to a question from Morrill of Vermont, as to the manner of obtaining signatures, Anthony replied that a young man told them that he received so much a day carrying memorials around and

The Daily Oregonian.

SATURDAY MORNING, FEBRUARY 10, 1872.

Southern Oregon and the Railroad.

The Jacksonville *Times*, the Democratic organ for the southern part of the State, continues to talk about the railroad interests of that section, and to demand for them recognition and development. In reply to one of its articles, a fortnight since, we reminded it that ex-Senator Williams, two years ago, proposed a measure that is vital to the interests of Southern Oregon, yet the people of that section did not comprehend or appreciate it. To this the *Times* rejoins:

That was just one year before Senator Williams went out of office, and just prior to the last election, when he wanted to be re-elected. He remained five years in his seat in the Senate perfectly oblivious to the existence of Southern Oregon, until just before an election, at which he thought he would need the votes of this people. The Democracy of Southern Oregon thought the trick "too thin," and let the manager of it out. The people had a right to believe that a man who who only awoke to the importance of their interests on the eve of an election, would go to sleep again for another five years' nap after election. So they concluded to try a new man. He may sleep, too, and we confess it looks like it now, but we shall endeavor not to let his slumbers get too profound. At any rate, we are no worse off now than we were before Williams woke up, and we have a Democrat, if he is asleep.

This whole matter may now possibly be deemed of little consequence. The people of Southern Oregon may little note nor long remember the fierce fight that was made two years since for a railroad through that part of the State. Williams, it is said, remained careless of the wants of Southern Oregon "till just before an election at which he thought he would need votes." It is a sufficient answer to this to say that he came to the defense of that section the moment its interests were imperilled. A railroad route had been laid through Southern Oregon. Certain parties tried to change it. It was then that Williams defended that part of the State. There was no need of his measure before he proposed it. Nobody in Southern Oregon knew the need of it till some time after Williams had taken his stand.

In another particular the *Times* is at fault. It says that the bill lately introduced by Senator Corbett "contemplates a railroad on the Pengra route, just precisely what the Williams' amendment was intended to kill." This is a mistake. The bill introduced by Senator Corbett proposes the very thing which Williams contended for. Senator Kelly was elected on purpose to introduce this bill, but he has failed. The *Times* confesses that he is "asleep." It will confess after a while that it is unable to wake him.

This subject is really one of the greatest importance to Southern Oregon still, and the legislation which Williams tried to get is very essential in order to bring about the proper development of our railroad system.

Sumner, Trumbull, Amnesty and Things.

An amnesty bill is now before the Senate of the United States. Mr. Sumner insists on an amendment assuring to all colored persons the right to enter schools and churches, cars, boats and other places, on equal terms with white persons. This move is likely to kill the bill. We regret Mr. Sumner's action, but do not forget that the Democratic party has recently taken a sort of charge of him and has extolled him almost to the skies as a statesman of honest purposes and comprehensive views. His course in urging this amendment to the amnesty bill may embarrass that party a little for a time, but perhaps he will be able ere long to lead it up to the "advanced position" on this subject which he himself occupies.

Amnesty has long been delayed by the refusal of the ex-rebels and the Democratic party to acquiesce honestly in the settlements of the war. Even yet they lose no opportunity to attack and denounce the constitutional amendments and the means adopted to enforce them. With a much better grace they might seek for amnesty if they did not exhibit at all times this malicious intent to strike down these added muniments of personal liberty and of national authority which the people have seen fit to ordain. And it is for this reason, chiefly, that Congress is disposed yet to withhold complete amnesty. One style to those who respectfully ask for oblivion for their own wrongful acts; another to those who with insults and threats make their demands, and proclaim their purpose to use the advantage which they seek, to overturn the Constitution and laws which the country has established.

On Thursday last Mr. Trumbull participated in the debate on amnesty. He did not want the privileges conferred by the fifth section of the bill restricted to citizens, but insisted that they be extended to all persons in the country, including the Chinese. He could see no reason for withholding citizenship and its privileges from "peaceful, intelligent Asiatics." This is in the spirit of his remarks in the Senate in July, 1870. On that occasion he said, "If the Chinese are permitted to come to this country I am for incorporating them as part of the body politic and making them citizens of this country." Mr. Trumbull, as well as Mr. Sumner, has of late been much admired by the Democracy, and not a few of them have been trying to coax him to become their candidate for President. Mr. Doolittle, late Democratic candidate for Governor of Wisconsin, is confident that Mr. Trumbull will be the man.

We mention these things to show with what diverse views the subject of amnesty is now being agitated. Of course the thick-and-thin Democratic members favor amnesty, because they sympathize with the rebellion and all who participated in it. It would greatly please this class, comprising the "true Democracy," to see Davis, Breckinridge and Toombs back in the Senate, the leading rebel generals given high positions in the army, and rebel soldiers placed on the national pension rolls on equal terms with those who defended their country.

Senator Schurz.

Many of the friends of Senator Shurz, of Missouri, when they hear Democratic encomiums upon the course which the Senator has taken, and listen to a statement of the reasons for this new-born admiration, will be likely to ask whether the man who is the object of it has not made a grievous mistake, to entitle him to praise from such a source and for such reasons. Only a few years ago the name of Carl Schurz was spoken with contempt and derision by the Democratic press of the country. The leading Democratic organ of Oregon was accustomed to speak of him habitually as "Carl Squirts." When he held a command in the army, the whole Democratic press of the United States asserted that he was an imbecile and a poltroon. We now find the principal Democratic organ of Oregon lauding him excessively. It says that when he came to America his feelings of hostility to negro slavery led him into some extremes of expression and action which time and a wider experience have done much to correct;" but that "if impelled by too warm a zeal, he erred in this regard (that is, in respect to the abolition of slavery and the enfranchisement of the blacks) he is now doing his best to atone for his error, so far as in him lies." It is thus assumed that the Senator has renounced his devotion to the principles of freedom; that he has abandoned those Republican ideas of equal rights which he has so long professed, and adopted the so-called Democratic ideas and prejudices which he so long battled against. If this be true of Senator Schurz, how can any one say that he has been driven out of the Republican party? If it be true, he has simply exchanged his Republican principles for the Democratic dogmas which he so long and so ably combatted. The *Herald* has it that he has "corrected" his former "extravagant views," and is "doing his best to atone for his error." Senator Schurz may well pray to be saved from such a justification.

A Question of Veracity Settled.

The Albany *Democrat* says that the OREGONIAN "suppressed" an item which appeared in the *Herald* on Sunday morning, and which stated that Collins, a pension agent in the District of Columbia, was a defaulter in the sum of $10,000. That paper adds:

No wonder that "very respectable" sheet can afford to brand our statement of Radical stealings as untrue when it suppresses from its own columns the evidence which would assist in substantiating them. That *is* a very fair, impartial and independent journal indeed!

The Albany *Democrat* has simply fabricated a falsehood. The item referred to was published in the very number of the OREGONIAN in which the *Democrat* says it did *not* appear. A day or two afterwards another paragraph appeared in the OREGONIAN, telling who Collins was, and giving other information regarding the affair. This is the intelligence which it is alleged we "suppressed." No other paper in the State has given so much information about the affair as the OREGONIAN has. This paper publishes all the news that is obtainable, and the *Democrat* and its ilk are welcome to pirate that news from our columns, as they do habitually from month to month; but there is no occasion for such bald and unblushing falsehoods as the one we have here exposed. We shield no Republican thief as the Democratic press, including the one at Albany, tried to shield Tammany. We prefer that thieves should be exposed and driven from the party with which we associate.

The *Herald* the other day contradicted our statement that the Swartwout defalcation in the New York custom House in Democratic times was one million dollars. It stated "from memory" that the defalcation was only twenty thousand. We then quoted from the official record, which is also open to the *Herald's* inspection, showing that it was $1,344,119 65, a sum three times as great as the recent Hodge defalcation, and far in excess of all the amounts lost to the Government during the last four years by every species of embezzlement and irregularity. But our literary friend has not candor and honesty to correct its former statement and to give the real amount of the Swartwout embezzlement.

The *Bulletin* says that railroad fares in Oregon are "one hundred per cent. less" than in California, and thinks that litigant printing rates ought to be reduced "two hundred and fifty per cent." The way we figure it, "one hundred per cent. less" on railroad fares would reduce them to just about nothing, and a reduction of two hundred and fifty per cent. on litigant printing would compel the litigant organs to "disgorge," after the manner of "equitable adjustment." But we don't think we should object to this last result.

OREGON.

Walter D. C. Davidson, of Marion county, has been adjuged insane and taken to the Asylum.

James Farrell, telegraph operator at Cornelius, Washington county, died suddenly on Thursday. He had been drinking heavily.

During the year 1871 Washington county expended 3,724 days' work on the public roads, and $14,000 for lumber and bridges. A good record.

The Sheriff of Washington county has turned over to the United States Marshal all the property of M. S. Hart & Co., bankrupts, in that county.

At the Linn county Fair next fall there will be a horse race for one thousand dollars in gold. We are not told whether the Society will have any money left for other premiums, or not.

A specter, ghost, fay, sprite, elf, goblin ouphe, or something of that sort, is flitting about in the vicinity of North Salem. It gets a notice in the *Statesman* half a column long. The reporter of that paper will doubtless interview it soon.

SEDUCTIVE LECTURER.—According to the Boston *Transcript*, Horace Greeley is not very engaging as a lecturer, and indeed, having heard the Philosopher on one dreary occasion, we are compelled to think that the *Transcript's* criticism is about the right thing. That paper says:

Mr. Greeley is one of those lecturers whose audience almost always hears him for the first time; those who have heard once have gratified their curiosity and are hardly willing to endure the monotonous delivery, the sing-song tone, and the dry, matter-of-fact composition of his lecture. He keeps his voice pitched in the same high, unnatural key, and any change is for the worse instead of the better. He reads poetry very much as Solon Shingle does, and seems to have very much the same admiration for it. Last evening he followed the written text of his lecture very closely, and unless his eyesight was defective it was by no means as clear as print, for he was compelled to stop every now and then to read it, and whenever he did so the break was filled by the convenient syllable "er." When the pause was longer than usual he would take from off a page a very large red silk handkerchief, with a deep border of a different shade, and wipe his face until he found proper connection.

A MAIDEN'S "CHEEK."—A maiden lady, aged 32 years, living in Waukesha, Wisconsin, offered a private detective $1,000 to secure her marriage with a wealthy old gentleman, the money to be paid on her wedding day. The detective secured her an introduction to the object of her intentions, and directly the acquaintance of the two waxed vigorous. The fact of the bargain with the detective has transpired in a suit now before the Wisconsin courts. The maiden in vain tried all her arts upon the old gentleman. She could not get him to marry her, and so doing the next best thing, she prevailed upon him to seduce her. The old gentleman didn't want to do it, but he really couldn't help himself; and the suit in question is his punishment. The maiden lady considers her lost virtue worth sixty thousand dollars, and the probability is that a sympathetic jury will give her $25,000. Of course the victim has no remedy, though the maiden lady is a deliberate, a convicted swindler. The law does not recognize the comparative value of different articles of virtue. It discovers the fact simply that this old gentlemen, for instance, has money, and that he has been indiscreet. And it makes no provision in behalf of the victim of this designing female, this branded swindler.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

THE SNOW BLOCKADE.

Dispatch from Corinne.

CORINNE, Feb. 9.—A dispatch received from Adam Ulbect of the Corinne *Reporter*, who is a passenger on the train arriving at Rawline this morning, reports as follows: Several passenger trains just arrived here, the first having been 22 days from Omaha; the second 21, and third 24. Between stations those who had no provisions of their own, were compelled to live on crackers and cheese, the railroad company alleging that they had nothing to eat. An indignation meeting of passengers was held when they were snowbound. Many of them volunteered to shovel snow, but protested against the character of the provisions as unwholesome and insufficient. Sickness has broken out in several of the passenger cars. Second class passengers are suffering to a great extent for want of food. There is some prospect of the trains getting through the drifts in 24 hours if the storm does not come up. A dispatch from Laramie states that a train left that place on the 30th ult., and there are four trains lying there now.

UTAH.

SALT LAKE, Feb. 9.—Much surprise and regret is expressed to-day among the Gentiles upon learning that Minister DeLong and the Japanese Embassy, excepting the principal Embassador, who was indisposed, had called on Brigham Young. It is concluded that Young, not occupying any recognized official position, and being a prisoner charged with murder, Mr. DeLong, as representative of the United States to a foreign power, has made a serious mistake in this visit, inasmuch as it compromises some of the Federal officials, and Mr. DeLong's station. The feeling on this subject to-night is so exciting that some of the subscribers to the banquet have withdrawn their names.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Feb. 9.—John Jacobs, who sued James Smith for $50,000 damages for personal injuries from an assault, got a judgment to-day for one cent, mitigating circumstances being proved.

The examination of Burrows & Scott, charged with running a faro game at 127 Montgomery street, has been going on all day before Judge Louderback, the principal witness being Judge Barbour of Tuolumne county, who was attorney for the defendants for several years. He could recollect very few of the parties he had ever seen there, the present Governor of a neighboring State being one of them, and he had only seen him at supper. The examination appears to have grown out of a jealousy among the gamblers themselves. Some of those closed up by the police complain that the others were allowed to keep running.

Stock sales to-day were lighter than at any time before for the past two weeks. Only 19,684 shares have changed hands at the morning Board at a decline, through nearly the entire list.

Weather fine and clear; wind northwest.

SAN FRANCISCO, Feb. 9.—Vessels off the heads are the ships *Belle Morse*, 145 days from Newport, Wales, to George Howes & Co., and *Niagara*, 133 days from Cardiff, with coal to Falkner, Bell & Co.

The Sailor Lund Looks Association are reported to have put up the price of sailors wages for the Pacific coast trade from $25 to $30 per month. Sailors are abundant here now and the demand is small at any price.

The colored people are circulating a petition for signatures asking the Legislature to enact an amended school law admitting white and black children on terms of equality and abolishing the separate schools for black. It is not generally signed by white voters having children in the schools.

Arrived—Steamer *Newbern*, Colorado river.

The collection in Geology, natural history, of the Lieut. Wheeler expedition party, came up per steamer *Newbern*.

Postmaster Shoup has no information giving any hope of the mails coming through the snow blockade immediately.

INTERIOR CALIFORNIA DISPATCHES.

VALLEJO, Feb. 9.—The employes on Mare Island are to be paid off to morrow. About $50,000 in greenbacks will change hands.

LOS ANGELES, Feb. 9.—The surveying party on the Southern Pacific Railroad under Phelps arrived to night, and will recruit here and proceed with the survey to San Bernardino, and thence to Fort Yuma and Colorado river.

Anecdotes of Jacob Barker.

[From the Philadelphia Press.]

Among the anecdotes of Mr. Barker's life which old merchants are fond of relating, is the following, which occurred when he was engaged in business in New York, and before he had become so noted for his financial dealings: He had often little ventures at sea, the common way in which the incipient merchant of that day tried his fortune. These ventures were frequently insured, the business then being done by individual under-writers, instead of by incorporated companies as now. One of those underwriters was in the habit of taking young Barker's risks. On one occasion the young man had a thousad dollar venture on board a vessel which he had hesitated about insuring. At length he made a contingent bargain with his underwriter, that he would insure it on certain favorable terms, embracing some small concessions by the underwriter, such as that he should pay the stamp fees and some other damages, and providing that the policy should not issue till the next morning at eight o'clock, up to which time young Barker reserved the privilege of revoking the arrangement. Eight o'clock came, and Mr. Barker, hearing nothing of his vessel, gave no notice to his underwriter, and thus allowed his policy to attach according to terms of the agreement.

An hour afterward, at nine o'clock, intelligence was received by Mr. Barker that the vessel had met with disaster, though she was not totally lost. Upon hearing this news, he dispatched a messenger to the underwriter to say that if the policy had been executed he might send it; but, if not, that he (Barker) desired the matter to stand open until he should be able to see the underwriter. The policy was not yet made out when the messenger appeared, but the underwriter immediately took out a blank and filled it, carefully endorsing on the back all the little details and conditions he had agreed upon with Mr. Barker, and sent the instrument back to him by his messenger. The loss becoming known a question soon arose between the parties as to whether the underwriter was fairly bound. Both parties being Quakers, the question was referred to the meeting, which took it into consideration, and decided that no blame attached to Mr. Barker, and that the underwriter must pay. This he did, and as there was nothing in the transaction which these impartial umpires could refuse to sanction, there was of course nothing improper to impute to Mr. Barker.

THE DANGEROUS DRUG.—We have to record another death from the effect of hydrate of chloral; and we think it right to give prominence to every such case, in order that doctors and others may learn to practice caution in the exhibition of this dangerous agent. R. C. Fanning, of Chelsea, Mass., took two drams of the agent in five doses, given at intervals of about twenty minutes, and administered by the physician himself. After the last dose the patient fell asleep and slept quietly through the night. At about 8 o'clock in the morning it was discovered that he was dead. The attendant physician thought the patient died of congestion of the brain; but another doctor who was called in was of opinion that the fatal termination was clearly to be attributed to an over-dose of the hydrate. It was rather singularly, we must say, determined to hold no inquest.—*New York Tribune*.

"THE WORK GOES BRAVELY ON."—CASE NO. 6001—SECOND SERIES.

GUADALOUPE MINE, near SAN JOSE, Aug. 15, 1871.

DR. A. M. LOWTEX & CO.—For a long time I have been afflicted with Rheumatism in my hands and feet, the pains most of the time being very severe. On the 7th of July I procured some of your UNK WEED REMEDY, and after taking only three bottles, find that I am quite restored to health and strength. I have had the Rheumatism for eleven (11) years, and think that the success of the "UNK" in curing a disease of so long standing, in so short a time, is very remarkable.

As a tonic and appetizer I have never met with anything equal to the "UNK WEED REMEDY." During the time I was taking it I gained fifteen (15) pounds in weight. Trusting that this certificate may be useful in inducing others afflicted as I was to try the "UNK," I remain, very truly yours,

Supt. and Agent Guadaloupe Mine.

The Salem *Mercury* says that "whenever Democrats are in power they fearlessly investigate and prosecute all delinquencies that come to their notice, without regard to the political complexion of the delinquents." That is a queer assertion to make by a journal that defends the swamp land swindle, practices the tyrannical extortion of the litigant law, and is doing its prettiest to cover up the Chemeketa swindle.—*Albany Register*.

CITY.

SEWER PIPE.—We saw, yesterday, in the office of the Auditor, a couple of specimens of large stone pipe, which were sent in by Mr. C. H. Myers, with a view of exhibiting its fitness for sewer pipes. The larger piece has a diameter of about thirteen inches and the smaller about ten inches. We understand the makers—at the Buena Vista Pottery—will manufacture pipes as large as eighteen inches in diameter, should the city conclude to make a trial of it for sewer pipes. It would unquestionably answer the purpose exceedingly well, in all places where the drainage is not too great for its capacity. The pipe is very strong, smooth inside, and, if properly put down, would be cheaper than wooden sewers, on account of its greater durability. There is no reason why it should not last a century, while wooden sewers have to be renewed every few years. It might be worth while to make a trial of the pipes.

BRING BACK THAT PICKET.—During Thursday night a prowler attempted to get into a house at the corner of Stark and Fifth streets by picking the lock of a back door. A couple of boarders in the house, hearing the noise, got up and were proceeding to get in readiness to give the visitor a proper reception; but the latter failed to get the door open and went around to the front porch. The lady of the house was awakened by his footsteps on the porch and called out to one of the boarders by name. The burglarious fellow, at this, shot off the porch and through the gate with such unseemly haste as to carry away one of the pickets. He got around a street corner just in time to render it unnecessary for the boarder to fire his revolver in that direction. The proprietor of the house, however, hopes the graceless scamp will bring back that picket, when he comes again.

FOSSIL COLLECTIONS.—Mr. Charles Dubois, who was engaged some time ago to procure and prepare specimens of the fossils of the Pacific coast for Yale College, received by the last steamer from Sitka, a number of specimens which will, no doubt, be curiosities to the Reverend and grave Seigniors of old Yale. Among them are bones, teeth and horns of the mastadon, teeth and skulls of animals peculiar to the region of Alaska, and a number of specimens of the handiwork of the Alaska Indians. Mr. Dubois will prepare and ship a case of these fossils by the next steamer.

TREES BLOWN DOWN.—During Thursday night and yesterday morning, the wind blew so strong as to throw down many limbs, and, in places, entire trees. The freight train was not able to go upon time, in consequence of obstructions thus thrown upon the track. The wind blew here almost a gale for a while, about 9 o'clock yesterday morning, and passengers by the noon train report that when they left Salem a similar wind was blowing there. The road between here and Boone's Ferry is reported greatly obstructed by fallen trees.

WEATHER REPORTS.—The following reports came by O. S. N. Co's telegraph line yesterday: Cascades, heavy rain all last night; thermometer, 47°; blowing a gale up stream. Dalles, Rained quite hard for a few hours last night; thermometer, 42°; no wind; river clear of ice here. Umatilla, clear and pleasant; sun shining brightly; thermometer 42°; heavy rain last night; no ice running in the river. Wallula, rained hard all last night; thermometer, 40°. Walla Walla, thermometer, 40°.

NO CHANCE AT ALL.—The Heathen Chinee of this city is a grand combination attack upon the Devil at about 5 o'clock yesterday afternoon. We are of opinion that his majesty got the worst of it. In fact, he must have been an uncommon ly good natured devil if he didn't get mad and leave in disgust during the infernal cracker fusillade. What chance has one poor devil got among so many Chinamen and so many explosives?

TEMPERANCE LECTURE.—The *Sentinel* speaking of the forthcoming lecture on "Father Matthew" by Mr. S. J. McCormick, says: "The lecture will be interspersed with songs, poems and anecdotes illustrative of the subject, and will be opened and closed with some choice selections of vocal music by several ladies and gentlemen, accompanied by the piano, presided over by Mr. Neufield."

LIBRARY REPORTS.—The Librarian of the Portland Library has just requested us to make following corrections in the reports of Library officers published last Monday: "In the 'receipts' for '71, insert, 'Received from city of Portland $180.' The total will be the same. The sale of newspapers ought to be $25 79, instead of $28 79. Instead of 501 books purchased it ought to be 491."

CATHOLIC LENT.—Next Wednesday the season of Lent begins. High Mass will be said on that day at 9 o'clock A. M., immediately before which the ashes will be blessed and put upon the foreheads of the faithful. Every Wednesday and Friday evening during Lent services will be held at half-past 7 o'clock at the Catholic Cathedral.

FATHER MATTHEW SOCIETY.—We are requested to announce that every member of the Father Matthew Society is requested to be present at their hall on next Thursday evening, to attend the lecture to be held that evening at Philharmonic Hall. The society will attend in a body.

WOW!—Over three columns and a half in one of our cotemporaries devoted to the Chinese New Year and the Chinese! As though the matter had never before been mentioned! We had not looked for the infliction to come from that quarter.

FUNERAL NOTICE.—The funeral of Willie Hoyt will take place on Sunday, the 11th inst., at one o'clock, P. M., from the residence of H. L. Hoyt, corner of Alder and Seventh streets. Friends of the family are invited to attend.

LECTURE.—Mrs. Annie M. Jeffries will deliver a lecture at Philharmonic Hall at half past seven o'clock this evening on the subject of "The Ethics of Marriage." We learn that Mrs. Jeffries is new in the lecture field.

SPECIAL CHURCH NOTICES.

COUNTY HOSPITAL.—Rev. W. H. Meiss will preach at the County Hospital to-morrow afternoon at 3 o'clock.

CONGREGATIONAL CHURCH.—Rev. P. S. Knight, of Salem, will preach at the Congregational Church in this city Sunday morning, Feb. 11, 1872.

NORWEGIAN SERVICES.—There will be Norwegian services held at the Scandinavian Lutheran Church in this city next Sunday morning at 10 o'clock A. M.

MONTHLY CONCERT.—The Monthly Missionary Concert of the Centenary M. E. Church, East Portland, will be held on Sabbath afternoon next in that church.

PRAISE MEETING POSTPONED.—The Praise Meeting at the Congregational Church, which was postponed on account of the death of Mrs. Dr. Gleon, will be held Sunday evening, 11th inst. The public is cordially invited to attend.

LADIES' FESTIVAL.—The Ladies' Furnishing Society of the Taylor street M. E. Church, will give one of their interesting festivals in the basement room of the church on Tuesday evening, February 13th, at 7½ o'clock. Admittance, 25 cents.

INSTRUCTIONS IN DOCTRINE.—Rev. Mr. Eliot will deliver the third discourse upon the Doctrines of Christianity to-morrow evening, at 7½ o'clock, in the Unitarian Church, corner of Yamhill and Seventh. Subject—"The Nature of Jesus Christ."

NORWEGIAN SERVICE.—Rev. A. E. Fredriksen announces that in accordance with the request of some of the members of the Scandinavian Evangelical Lutheran Church of East Portland, he will conduct religious services in the Norwegian language in that church to-morrow morning at 11 o'clock.

GERMAN SERVICES.—Rev. Henry Gaus, pastor of the German Evangelical Lutheran Church, of this city, will preach in the German language on Sunday morning at 11 o'clock, and in the evening at 7 o'clock, in the German school house on the corner of Morrison and Ninth street. At 3 o'clock (afternoon) a meeting of all the members is requested for the purpose of electing members of the Church Council.

SPIGGOTS AND BUNGS.

Thursday night the clock in the tower of the Odd Fellows' Hall was not lighted up. This, of course suggested an inquiry which resulted in ascertaining the following facts: The Odd Fellows' Hall Association purchased and fitted up the clock—with some assistance from the city in consideration of the attachment of a fire alarm arrangement for the benefit of the Fire Department; the Portland Gas Co. donated the gas to light it from January 1st, 1871 to January 1st, 1872, after which they proposed to charge for such gas according to the amount used. On the 24th January the Odd Fellows' Hall Association sent a communication to the Council asking that body to assume the cost of gas for lighting the clock, the Association proposing to bear the expense of taking care of the clock and lighting up the tower; this communication was referred to the Committee on Ways and Means; at the last meeting of the Council no report being made, there was some talk, not of a definite character, but indicating the committee would not favor an appropriation for that purpose; whereupon the next evening the Gas Co. stopped off the gas.

The Council having thus negatively acted in the matter, on the principle of economy, the inference is that we are now to see a general stopping of spiggots in the city's cash tub. Speaking of spiggots reminds us, naturally, of the old saying about saving at the spiggot and wasting at the bung, and the query now is what bungs are open?

We have ascertained that the total cost of gas for the clock for 1871, was $263 40, or at the rate of $21 95 per month. The bill for January, 1872, was $25. At the same rate for each month in the year, the total cost would be $300; but it is not probable that the bill would be any greater than for 1871. The economy, then, proposed by the Committee of Ways and Means, amounts to a $263 40 spiggot.

Now let us see about the bungs: The appropriations already made by ordinance out of general fund, for various general purposes, amount to $35,100. The appropriation bill now pending in the Council foots up—after stopping the Library spiggot $200, and the clock spiggot $263,40—$48,760. The total flow, therefore, from spiggots and bungs, is $78,850. Further and more critically examining the treasury cask, by the light of the appropriation candle, we find one bung labelled "Litigation, etc.," from which $6,000 is expected to be drawn off. Another bung is marked Street Lamps, $9,500. Then there are several smaller bungs with various sorts of labels. But the King of all the bungs is the "Police." This is no sickly bung; it is not a bung contracted by anybody's sentimental tomfoolery about economy. Items: Board of prisoners, $3,000; expenses of jail, $100; guards for prisoners, $900; expenses of police court room, $2,000; "Police force, Police Commissioners and the fees to officers, arising from proceedings in the Police Court," $15,400—total, $20,400! Perhaps it is well enough to refuse $263 40 for the clock. But, it strikes us that the Council will have to be very industrious this year, in the stopping of spiggots of that size, if they save as much as will run from that "Police" bung.

But, without connecting or comparing this clock expenditure with such magnificent outflows from the treasury as the proposed appropriation for the Police, is it not an exhibition of parsimony unworthy the city to refuse to light up the town clock? It is true, it is not a necessity, but it is a great public convenience. It is not absolutely necessary to have sidewalks, but they are very handy, and we pay tens of thousands of dollars for them, every year. Why does not the Council, if it wants to economize or retrench, pay attention to some of the bunge mentioned, instead of whittling with its little knife at spiggot plugs? It is simply contemptible economy for a city which pays $20,400 for a Police force, to refuse $263 40 for lighting a town clock.

LOCAL BREVITIES.

There will be no more dancing by Christians till after Lent.

The steamer *Idaho* will sail for San Francisco at 4 P. M. to-day.

The Treasurer of the Board of Delegates has on hand $497 72.

The Chinese population are still going in recklessly on the celebrate.

The Police court didn't "pan out" worth a cent yesterday morning.

The steamer *California* brought over from Puget Sound a large quantity of hay.

There was another *ealse* fire alarm yesterday afternoon—no harm done, except to polished boots.

The ferry cable broke again yesterday and left the boat for a while to the tender mercies of the current.

There was another attempt at suicide on Thursday—a restaurant man—but he was pumped out and saved.

The three best drilled men of the Washington Guard, at the approaching prize drill, will get each a silver star.

The Father Matthew Society has appointed a committee with a view to joining in the celebration of St. Patrick's Day.

Mr. Troy Shelley is delivering to subscribers the book for which he has been canvassing—"Science and the Bible." It is a beautiful and valuable volume.

COURT PROCEEDINGS.

U. S. DISTRICT COURT—DEADY, JUDGE.

FRIDAY, Feb. 9, 1872.

In the matter of A. H. Jordan et al, in bankruptcy, verdict that respondents, Jordan and Morris, committed an act of bankruptcy by payment of $600 to Willamet Iron Works Company as alleged in petition.

P. and L. Lewin vs. *Steamship California*; in admiralty; suit for loss of merchandise; cause on trial.

The Court adjourned till to-morrow.

COUNTY COURT.

County Business—Commissioners, Burton and Kenworthy sitting as the Court.

Reports were presented by C. B. Comstock, Supervisor District No. 3, B. L. Hennese, No. 17, and Henry Stephenson, No. 15; accepted.

A number of bills against the county were examined and disposed of.

The petition of Everding & Farrell for reduction of assessment in the sum of $6,000 was not allowed.

Petition of W. F. Brown, for reduction of assessment $6,500, and of McLaren Bros. for reduction of taxes, were disallowed.

The resignation of John B. Garrison as Constable of Madison Precinct, was received and accepted.

It was ordered that H. W. Davis be appointed Constable for Madison Precinct.

Adjourned till 10 A. M. to-morrow.

AMUSEMENTS.

ORO FINO THEATER.—To-night Mr. Waldron will give his audience "Richard Third." The character is one in which Mr. Waldron excels. The piece is cast to the full strength of the company, and the fact that it is up ought to draw a full house. The "Three Guardsmen" was played again last evening, and as on the first night it was received with great applause.

MUSICAL AND LITERARY ENTERTAINMENT.—The Unitarian Chapel was crowded last evening by an appreciative audience, and seldom have we seen a much better pleased assemblage at any entertainment of like character. Although the original programme was not carried out, what was presented proved acceptable. Mrs. Put Smith's reading of "Kit Carson's Ride," was excellently rendered; as also the readings by Dr. Pittington and Mrs. Burrage, and "Little Jim," by a young gentlemen of this city. Misses Cole and Roberts performed a duet on the piano which afforded much satisfaction. The piano and organ duet (Miss Alvord and Mr. DePrane) was the most pleasing instrumental performance of the evening; and the piano solo of "Tam O'Shanter," by Mrs. Put Smith, received and deserved applause. The vocal solo, "The Skipper and his Boy," by Mr. Nesfield was perfect—an *encore* was the result. Mrs. Eliot, Mrs. Cardwell, Messrs. Hegele, Richter, Peterson, Morgan, Cardwell and Price, assisted ably in making up what the programme proved to be—an enjoyable one. We shall be pleased to hear of the entertainment being repeated.

BUSINESS NOTICES.

AUCTION SALE POSTPONED.—Owing to the inclement weather, Mr. Middlemiss has been compelled to postpone sales till next week. He is constantly adding goods, and the public will find rare bargains in goods that seldom are offered at auction sales.

KEPT AWAY BY SICKNESS.—We are sorry to learn that Judge Hamilton's absence from the County Court, yesterday, was occasioned by serious illness in his family.

To the Afflicted.—Dr. Aborn, corner Third and Morrison streets, treats with unparallelled success, all chronic diseases, no matter how painful or long standing.

Guard Your Health and Life.

How inconsistent is human nature. Men carry revolvers to protect themselves against ruffians in well-polished cities, where the precaution is unnecessary, often neglect to fortify their systems against disease in the most unhealthy season. Thousands of dyspeptics are now languishing in sick rooms, or feebly and listlessly moving through our streets, who owe their forlorn condition solely to a want of common prudence. Far more inimical than the roughs and rowdies, against whose possible attacks the timid arm themselves, are the morbid elements that pervade the atmosphere at this time of the year, and yet although it is an undoubted and undeniable fact that Hostetter's Stomach Bitters afford a more perfect protection against these causes of disease, than any weapon of offence can afford against lawless violence, the reckless and inconsiderate continue to brave the danger with a positive safeguard within their reach.

Every day, however, the number of those martyrs to their own want of forecast diminishes. Each succeeding season demonstrates more clearly the inestimable value of the Bitters, both as an antidote for the causes of disease, and a specific for its consequences. The miasma which generates periodic disorders, rheumatism, liver complaint, irregularity of the bowels and other physical disturbances, produces no effects whatever upon systems toned, strengthened and regulated by this powerful vegetable medicine, and dyspepsia, nervous debility, constipation, intermittent and remittent fevers, biliousness, and in fact nearly all the maladies which the Bitters, if taken in time, would prevent, are cured by the persevering use of the great remedy.

The genuine Bitters sold in bottles only, and never by the barrel, keg or gallon, as is represented by some unprincipled dealers.

LITTLE HOMES!

WE HAVE OBTAINED MANY TESTIMONIALS, which appear in the WEEKLY OREGONIAN, for the purpose of answering once for all the many inquiries in relation to our "LITTLE HOMES." We desire to show to strangers, through men of known integrity in this community that they are all we claim for them cheap at present prices, and the speculation in them like in the future growth of Portland, in the building of Railroads, and Bridges over the Willamette, which is merely a question of time—and in the fact that in less than one mile distant, City Blocks (200 feet square) are selling for from two to three thousand dollars, and in less than two-and-a-half miles from a direct City blocks are selling as high as $200,000 per block! Just think of it! $50 per acre for land, and 2½ miles distant, $200,000 per acre! New York city is over twenty miles in length and six miles wide, and many other cities in the United States are half that long, and quite as wide, and if Portland becomes a metropolis she will require this land for business purposes. Thirty years ago we could have purchased a section of land where the business portion of Chicago now stands for $10 per acre—$50 for a five acre tract. Thirty years ago we could have purchased the town site of Portland for a Cayuse pony—*but we didn't have the pony!* Twenty years ago a solitary individual, with neither money nor friends, found himself in Portland without a red. He purchased a basket "on tick," and filled it with oranges, on the same terms, and went to peddling. Twenty long, eventful years have since elapsed. Still that sturdy old pioneer has stuck to Portland, and worked his way through thick and thin; and now where do you think he is?—*in the poor house, and over for the basket!* But to our

Now I Lay Me Down to Sleep.

Golden head, so lovely bending,
Little feet so white and bare,
Dewy eyes, half shut, half opened,
Lisping out her evening prayer.

Well she knows when she is saying,
"Now I lay me down to sleep,"
'Tis to God her soul she's praying,—
Praying Him her soul to keep

Half asleep, and murmuring faintly,
"If I should die before I wake"
Tiny fingers clasped so saintly—
"I pray thee, Lord, my soul to take."

Oh, the raptures sweet, unbroken,
Of the soul who says that prayer!
Children's myriad voices floating
Up to heaven, record it there.

If, of all that has been written,
It could choose what might be mine,
It should be that child's petition
Rising to the throne divine.

While the rustled bells were ringing,
"Earth to earth, and dust to dust,"
My free soul on faith depending—
Faith, and love, and perfect trust—

Would approach him, humbly praying,
(All the little ones around)—
"Jesus, Savior, take Thy servant!
Give to her Thy children's crown "!

Washington Society.

[Correspondence of N. Y. World]

Washington society during the session of Congress is at once the most Democratic, the most intellectual and the most fascinating in the country. The manners and courtesies of the Executive Mansion set the example, and these were derived from the State of Virginia and the city of New York, at the time Washington brought the Virginian Court with him to Bowling Green and received the calls of our New York element, in the days when George Clinton was Governor—and that a big wedding came off when his daughter espoused the citizen Genet—and when Jay and the Huguenots, Burr and the Connecticut Puritans and Adams and the Boston saints in light poured in to express their congratulations. Every year the New Year's festivities at Washington are exactly like those of New York, and the same is true of no other two large cities in the country.

In Washington there are few set ceremonial days, because nearly every day, Saturday and Sunday excepted, in Washington official life, is ceremonial day. Punctually on the first day Congress meets the Judges of the Supreme Court walk altogether to the White House to pay their respects to the Chief Magistrate, and it has been many years since this ceremonial has gone by default. Even when Johnson was being impeached by Congress the judges made its unanimous point of honor to go the whole length of the capital city, clad in their silken robes, to shake him by the hand.

All this time we spell not particularize about receptions and calls to relate days, save simply that one of the growing nuisances of Washington society lies in every lady, however humble or obscure, or who has my pretensions to be considered a part of society, fixing a certain day in the week to be called upon. Hence, if one starts out in a carriage to pay day calls, the chances are ten to one that only a few houses will receive him, the servant responding at the portal, that "Mrs. receives on Tuesdays," &c. Of course where so many people reside, and where so many go visiting merely for the sake of airing the horses or showing off the carriage, it is impossible for a lady to sit in full dress expecting to receive people day after day. If there were less "airing about in Washington life would be more open; it would cost less to live there and maintain a family, and the people would know each other better by character than they do at present under all the disguises of dressing.

THE GREAT LAKES.—The following statistics in regard to the five great lakes in North America are not generally known: Lake Superior is the largest body of fresh water in the world. Its greatest length is 335 miles, its greatest breadth 160 miles, and its area is given as 32,000 square miles. Its average depth is variously given as 688 and 1,000 feet. It is 600 feet above the level of the sea, 22 feet higher than Lake Michigan, and 50 feet higher than Erie.

Lake Michigan is 326 miles long, 108 miles in the widest part, and the mean depth of its waters is 900 feet. In its greatest length it is longer than Lake Superior, being 390 miles. It has an area of 23,000 square miles.

The greatest length of Lake Huron is 200 miles, the greatest width 109 miles, the mean depth 600 feet, and the area 20,000 square miles.

Lake Erie's greatest length is 250 miles, its greatest width 50 miles, the mean depth of its waters 84 feet (making it by far the most shallow of all the five lakes), and it has a superficial area of about 9,000 square miles.

The greatest length of Lake Ontario is 180 miles, the greatest breadth 65 miles, the mean depth 260 feet, and the area 6,000 miles.

The length of all the lakes is more than 2,600 miles.

FINANCE AND COMMERCE.

PORTLAND, FRIDAY EVENING, Feb 9, 1872

Gold in New York, 110¼.

Portland Legal Tender quotations, 90c buying and 91c selling

The advance in Gold, in absence of mail advices foreshadowing such an event, has taken many by surprise. It is generally thought that the strong feeling existing in England against the Cabinet in the course pursued in settling the *Alabama* claims has caused the advance in Gold For in the event of a disruption of friendly relations between the two countries New York importers, to meet obligations incurred in the United Kingdom, would have to remit very heavily. Although not advised, we are under the impression that shipments of Wheat, which have given Eastern importers a large part of their exchange during the winter to meet obligations with, are slack under the low prices ruling in Liverpool, and that the balance of trade is so largely against us that speculators are again operating in the Gold market, now that Secretary Boutwell has made all the heavy disbursements that were necessary to meet interest, etc.

The bark *Melancthon* and barkentine *Arabia* will be towed down the river on the 12th The former goes to Knappton for cargo and the latter with cargo to the sea, for San Francisco.

From the private Grain Circular of Messrs. Rogers, Moyer & Co., of San Francisco, published for distribution by their house in Liverpool, (Robert Rogers & Co.), we obtain the following shipping intelligence to Feb. 1st:

Tonnage has been scarce during January, but the last few days have brought quite a fleet to our port. Rates for Grain have constantly advanced Early in the month the *Montgomery Castle* was taken for Liverpool at £2 11s, a few days later the *Vancouver* at £2 11s 6d; then the *Titian*, at £2 15s; the *Brooksea* at £2 17s 6d, and the *Young Laurence* at the same figures, all for Liverpool direct. The bark *Perdo* was chartered at £3 for England with 2s additional if ordered to Havre. Freights remain at £2 17s 6d for Liverpool, and £3 orders to the United Kingdom.

It will be seen by the above that with a decline in the Wheat market abroad and the advance in charters on this side, Wheat could not do otherwise than decline in price.

The bark *Chetsit* arrived at her wharf this afternoon.

From private advices received from San Francisco we learn the complaint at the long continued snow blockade on the overland railroad is not only long and loud, but is also increasing in volume. We are not unaffected by the blockade. Many of our merchants have goods that are absolutely necessary to keep up assortments laying on the line of the railroad, in some instances for several months. Some goods that should have been received previous to the holidays were only received during the present month; some of them, such as Chestnuts, were received in an unsaleable condition. We are not at this writing advised of the "blockade being raised," but from the tenor of a dispatch to Messrs J Kraemer & Co, from their partner just returning from Boston, we should think it was. If this should prove to be the case, our assortments of Boots and Shoes, Dry Goods, Clothing, etc., will be full and complete within a month.

The snow blockade on the Union Pacific Railroad calls forth throughout the United States a general desire to see more continental railroads in active operation. The rapidity with which the tide of travel and freight, not only from China, Japan, and other countries contiguous, but also from Australia and New Zealand, is seeking for quick and rapid communication with the Eastern States, with a strong probability of some of the traffic of the United Kingdom to and from above-mentioned countries seeking the same channel, demand that other and more certain lines of transportation should be constructed between San Francisco and the Atlantic States. The snow blockade has caused the suspension for the time being of both passenger and freight travel, thus deranging all business calculations to the great injury in many cases of merchants both on this coast and on the other side. California will probably be connected East by two roads, one of which, from this winter's experience, holds out no certainty of continuing open the entire year; for any winter there may be a snow blockade, and the other from a combination of several obstacles (we speak from a personal knowledge of the country through which it passes in Arizona) will be almost impossible to keep open the entire year. But admitting that both can be kept open at all times, we are convinced that both will be required to be accommodated, and more railroads will be required Here we have a road under construction, skirting the northern boundary of the United States, running through fertile valleys, heavy forests, rich mineral lands, and with no snow of any consequence to be met with during the entire year, thus offering superior inducements to shippers not only in China, Japan and Australia, with proper water communications established, but also to those East purchasing in the markets of the above-mentioned countries But we require still another road to fully develop our resources and insure to us the certainty of a large majority of the trade of the Eastern States. Our growing prosperity as a nation demands it as a military and commercial necessity, independent of the large and increasing population of the States and Territories of the Northwest. One road cannot do the carrying trade when once our immense resources begin to be developed, and with the foreign and domestic trade that will in all probability center here in order to obtain sure transit for goods, it will be impossible for the Northern Pacific to accommodate all the freight offering and also do justice to the large traffic that will spring up along its entire length—for the country through which it passes admits of being thickly populated for manufacturing, agricultural and mining industries. But even admitting that it could accommodate all the carrying trade, which we think impossible, one section of the United States should not receive more favors than another. California has her Central Railroad and will probably also have a Southern road. We will soon have a Northern road and should also be provided with a Cent al road, in order to thoroughly develope the resources of that part of the country through which it would pass, and also regulate the tariff more advantageously to shippers.

Produce Market.

FLOUR—Mail advices received from San Francisco by the *Idaho* have a depressing tendency, although prices are unchanged so far as we are advised. The *Prince of Wales*, on her last trip to Victoria, from San Francisco, took on a cargo composed almost entirely of the National Mills brand. We are not advised regarding quality now made by the National Mills, but something over two years ago it lost its standing, owing to the poor Wheat used in manufacturing their extra. If the quality is an average of the mill's extra at that time the same quality can be purchased in this market at not to exceed $6 25 ₰ bbl, and we think as low as $6 Our leading millers take pride in sustaining the reputation of their mills by manufacturing a superior article of family and baker's extra.

DRIED APPLES—We note quite a speculative movement to-day at about 5c ₰ lb for shipment to San Francisco In the fall under advices received from the East we advised farmers to dry more Fruit than for some years past as everything indicated higher prices this year The short crops in the Middle States and the advance to coupon gage being the main reasons for thinking better prices would obtain this year than last

FLAX SEED—We are advised by telegraph to-day from George F. Holman, Gen l Agent Pioneer Oil Works that their company has not purchased stock of Flaxseed held in the State by the Pacific Oil Factory of San Francisco, and do not intend to

General Merchandise.

AGRICULTURAL IMPLEMENTS—*Gay's* plow, Pihl patent, $60; Sulky, $80; Eureka, $60. SAN FRANCISCO, Feb. 9.—Flour—2,000 bbls Oregon arrived yesterday. The stock in the city is said to be 50, 000 bbls. All the local mills except the Golden State have closed down. Good brands of extra are offering at from $6 to $6 50, though local millers assure us that they still adhere to $6 75 with the usual discount. They say that at present prices of Wheat they cannot make Flour for less. Nevertheless, the market is very heavy at $6 to $6 75 for extra. Golden Gate, nominal at $6 50@6 75 for superfine, extra, $6 50@6 75.

Wheat—Shippers and millers are both holding off, yet there is no urgent pressure to sell, and rates remain unchanged A lot of 30 tons good sold at $2 25. An order is at hand for 50 tons seed to seed down 2,000 acres. Prospects are of a flattering character.

Barley—Sales of a large amount at $1 50@1 61½

Oats—Range of market, $1 62½@1 80.
